

ACCREDITED PROGRAMMES IN CONSTRUCTION MANAGEMENT AND CONSTRUCTION PROJECT MANAGEMENT

The South African Council for the Project and Construction Management Professions is empowered to accredit project and construction management educational programmes within any department, school or faculty in institutions of higher learning. This is in line with Section 13(a)(b)(c) of the Project and Construction Management Act (Act No. 48 of 2000), which mandates the Council to conduct accreditation visits within its term of office.

In the year 2012 from July to November, the SACPCMP with the assistance of relevant stake holders successfully conducted the first Programme Accreditation of Construction Management and Construction Project Management qualifications within Higher Education institutions in South Africa that offer these qualifications. A total of 28 Programmes were accredited.
