In line with the construction industry development initiatives, the Council continues to advance and promote the science and management practice of project and construction management thereby contributing towards promotion of the construction and built environment industries.

It further regulates the Project and Construction Management Professions to protect the public by identifying the type and scope of work, registering professionals, and maintaining a national register of professionals who adhere to a Code of Conduct.

It also accredits Project and Construction Management programmes at tertiary educational institutions to ensure that graduates are employable within the industry upon completion of their studies and recognises Voluntary Associations who assist in the promotion of the professions under the SACPCMP (South African Council for the Project and Construction Management Professions) umbrella.
