1. BACKGROUND

The South African Council for the Project and Construction Management Professions (SACPCMP) is a juristic person established by section 2 of the Project and Construction Management Professions Act (Act No.48 of 2000) which provides for statutory professional certification, registration and regulation of Project and Construction Management Professions to protect public interest. In line with the construction industry development initiatives, the Council continues to advance and promote the science and management practice of project and construction management thereby contributing towards promotion of the construction and built environment industries.

It further regulates the Project and Construction Management Professions to protect the public by identifying the type and scope of work, registering professionals, and maintaining a national register of professionals who adhere to a Code of Conduct.

It also accredits Project and Construction Management programmes at tertiary educational institutions to ensure that graduates are employable within the industry upon completion of their studies and recognises Voluntary Associations who assist in the promotion of the professions under the SACPCMP (South African Council for the Project and Construction Management Professions) umbrella.

OPERATIONS

The SACPCMP operates in the Built Environment alongside five other Councils being.

1. The South African Council for the Architectural profession (SACAP),
2. The Engineering Council of South Africa (ECSA),
3. The South African Council for the Landscape Architectural Profession (SACLAP),
4. The Council for the Quantity Surveying Profession (SACQSP) and
5. The South African Council for the Property Valuers Profession (SACPVP).

The National Minister of Public Works is the Executive Authority of the Council and communicates with the Council through the CBE, which is the overarching body that co-ordinate the activities of all the six Built Environment Councils.

2. PROJECT SCOPE

The Council seeks to appoint a panel of professional Qualifications Evaluators to undertake Qualifications recognition process obtained from Non SACPCMP accredited institutions as per the SACPCMP policy and processes Evaluations to determine the relevance of the unrecognized programmes for the purpose of determining the eligibility of registration as professionals with SACPCMP.

3. NATURE OF SERVICES AND SCOPE OF WORK

- 3.1.** The Qualifications Evaluators will assess the various submitted SACPCMP Non-accredited tertiary qualifications and experience per the relevant policies and generate Evaluations reports and recommendations.

METHODOLOGY AND APPROACH			
Credible methodology and approach			
<i>Demonstration of how the following Qualifications Evaluations were/are conducted and organisational capacity</i>			
No methodology has been submitted	0		
The technical approach, methodology and/or workplan is poor / is unlikely to satisfy project objectives or requirements. The tenderer has misunderstood certain aspects of the scope of work and does not deal with the critical aspects of the project. The activity schedule omits important tasks or the timing of the activities and correlation among them are inconsistent with the approach paper. There is lack of clarity and logic in the sequencing.	1		
The approach is generic and not tailored to address the specific project objectives and requirements. The approach does not adequately deal with the critical characteristics of the project. All key activities are included in the activity schedule but are not detailed. There are minor inconsistencies between timing, project deliverables and the proposed approach.	2	0.20	5
The approach adequately addresses the specific objectives and requirements and, in some instances, accommodates changes that may occur during execution. The work plan fits the approach; all important activities are indicated in the activity schedule and their timing and sequencing is appropriate and consistent with Qualifications Evaluations objectives and requirements. There is a fair degree of detail that facilitates understanding of the proposed work plan	3		

<p>The approach is specifically tailored to address the specific objectives and requirements and is sufficiently flexible to accommodate changes that may occur during execution. The work plan fits the approach well; all important activities are indicated in the activity schedule and their timing and sequencing is appropriate and consistent with project objectives and requirements. There is a fair degree of detail that facilitates understanding of the proposed work plan</p>	4		
<p>Besides meeting the “good” rating, the important issues are approached in an innovative and efficient way, indicating that the tenderer has outstanding knowledge of state-of-the- art approaches. The approach paper details ways to improve the project outcomes and the quality of the outputs. The sequencing and timing of activities are very well defined, indicating that the tenderer has optimized the use of resources and the work plan permits flexibility to accommodate contingencies.</p>	5
