## **1. BACKGROUND**

The South African Council for the Project and Construction Management Professions (SACPCMP) is a juristic person established by section 2 of the Project and Construction Management Professions Act (Act No.48 of 2000) which provides for statutory professional certification, registration, and regulation of Project and Construction Management Professions to protect the public interest.

In line with the construction industry development initiatives, the Council continues to advance and promote the science and management practice of project and construction management thereby contributing towards the promotion of the construction and built environment industries.

It further regulates the Project and Construction Management Professions to protect the public by identifying the type and scope of work, registering professionals, and maintaining a national register of professionals who adhere to a Code of Conduct.

It also accredits Project and Construction Management programmes at tertiary educational institutions to ensure that graduates are employable within the industry upon completion of their studies and recognises Voluntary Associations that assist in the promotion of the professions under the SACPCMP (South African Council for the Project and Construction Management Professions) umbrella.

### **OPERATIONS**

The SACPCMP operates in the Built Environment alongside five other Councils.

- The South African Council for the Architectural Profession (SACAP),
- The Engineering Council of South Africa (ECSA),
- The South African Council for the Landscape Architectural Profession (SACLAP)
- The Council for the Quantity Surveying Profession (SACQSP)
- and the South African Council for the Property Valuers Profession (SACPVP).

The National Minister of Public Works is the Executive Authority of the Council and communicates with the Council through the CBE, which is the overarching body that coordinates the activities of all the six Built Environment Councils.
