1. ABOUT THE SACPCMP

The South African Council for the Project and Construction Management Professions (SACPCMP) is a juristic person established in terms of Section 22 of the Project and Construction Management Professions Act (Act No. 48 of 2000). The Act mandates the statutory certification, registration, and regulation of Project and Construction Management Professions in order to safeguard the public interest.

Aligned with broader construction industry development goals, the SACPCMP advances and promotes the science and practice of project and construction management. Through its regulatory mandate, the Council contributes to the growth and transformation of the construction and built environment sectors.

As part of its regulatory functions, the SACPCMP:

- Identifies the scope and categories of professional work;
- Registers professionals and maintains a national register;
- Enforces compliance with a professional Code of Conduct;
- Accredits relevant academic programmes at tertiary institutions to ensure graduate employability; and
- Recognises Voluntary Associations that support and promote the objectives of the profession under the SACPCMP's framework.

OPERATIONAL CONTEXT

The SACPCMP operates within the Built Environment, alongside the following statutory Councils:

- South African Council for the Architectural Profession (SACAP)
- Engineering Council of South Africa (ECSA)
- South African Council for the Landscape Architectural Profession (SACLAP)
- South African Council for the Quantity Surveying Profession (SACQSP)
- South African Council for the Property Valuers Profession (SACPVP)

The Minister of Public Works and Infrastructure serves as the Executive Authority overseeing the SACPCMP, with coordination facilitated through the Council for the Built Environment (CBE), which acts as the overarching body for all six professional councils in the Built Environment.

2. BACKGROUND AND PURPOSE

As part of efforts to improve operational efficiency, compliance, and access control, the SACPCMP seeks to replace its current biometric time and attendance system. The existing system has reached its end-of-life (EOL) and no longer meets the organisation's operational requirements in terms of reliability, scalability, reporting, and integration. Limitations in monitoring, data accuracy, and user access controls have necessitated the procurement of a more modern, secure, and scalable solution.

The purpose of this TOR is to invite suitably qualified service providers to propose and implement a biometric time and attendance system with access control, including remote monitoring capabilities, optional visitor management. The solution must align with SACPCMP's digital enhancement objectives while ensuring compliance with data protection legislation and organisational policies.

3. OBJECTIVES

The primary objective of this project is to procure and implement a modern Biometric Time and Attendance System with Access Control that will enhance operational control, accuracy, and security at the SACPCMP's offices.

The system must:

- Accurately record employee attendance using fingerprint authentication.
- Control and monitor access to designated restricted areas.
- Enable real-time monitoring, alerts, and reporting for authorised personnel.
- Provide secure remote access for system administration and reporting.
- Offer scalable, auditable, and POPIA-compliant functionality.
- Include optional functionality for managing and tracking visitor access, feedback, and service rating.
- Replace the existing system which has reached end-of-life and is no longer fit for purpose.

This solution must align with the SACPCMP's digital transformation efforts, ensure audit readiness, and support effective people and asset management within the organisation.

4. SCOPE OF WORK

The appointed service provider will be responsible for the supply, installation, configuration, training, and support of a biometric time and attendance system with integrated access control functionality. The system must be user-friendly, scalable, secure, and aligned with SACPCMP's operational needs.

The preferred implementation period is within **3 - 5 weeks** from the date of appointment. Bidders must include a detailed project schedule.

The scope includes, but is not limited to, the following:

4.1. Biometric Devices and Access Points

- Supply and install LAN-enabled fingerprint biometric devices (**no facial recognition**)
- Devices must be installed at the following access points:
 - Reception Door (1 in / 1 out)
