1.2.	Section 5.1: Fully Installed Biometric System and 12 Channel CCTV cameras	Fully Installed Biometric System and 16 Channel CCTV cameras.
1.3.	Section 5.3: Neat and secure trunking and 12-core cabling for all access points.	Neat and secure trunking and multi-core cabling for all access points
1.4.	Section 10.1. PRICING SCHEDULE: 3. Trunking and Cabling (12-core)	Trunking and Cabling (multi-core)

Additional clarification: The SACPCMP had identified the surveillance that need to be installed with the following capabilities:

- I. Resolution: varies from megapixel (e.g., 2MP,4MP,8MP/4K) to analog HD (700 TVL).
- II. Lens: can be a fixed or varifocal lens, which offers a variable field of view (FOV).
- III. FOV: Determined by the lens type. Wide-angle lens provide a wider view, while telephoto lenses focus on a more specific area.
- IV. Night vision: Infrared (IR) LEDs provide illumination for low-light or night vision.
- V. The range can vary from 20m to 30m or more.
- VI. Network Connectivity including the storage.

2. EXTENSION OF CLOSING DATE:

Due to the changes detailed above, the SACPCMP has extended the tender closing to: **FRIDAY, 12 DECEMBER 2025 AT 16:00 PM.**

3. QUERIES

Bidders may submit queries via email to the following addresses: Mike.chauke@sacpcmp.org.za and cc: tender@sacpcmp.org.za

The SACPCMP would like to thank you for your attention to these changes and updates. We appreciate your understanding.
