1. INTRODUCTION

The South African Council for the Project and Construction Management Professions (SACPCMP) derives its mandate from Section 22 of the Constitution of the Republic of South Africa, the relevant section dealing with freedom of trade, occupation and profession, states that “every citizen has a right to choose their trade, occupation, and profession freely. The practice of a trade, occupation or profession may be regulated by law.”

The SACPCMP was thus established to register, certify, regulate, and promote specific Built Environment Management Professions. It is further tasked with the protection of public interest, which is achieved by ensuring suitably qualified and registered professionals in specific Built Environment Management Professions in South Africa through promoting and enforcing high standards of professional ethics and conduct within the built environment.

The Minister of Public Works and Infrastructure is the Executive Authority of all the councils within the built environment including the SACPCMP. The Built Environment refers to the functional area within which registered persons practice and includes all structures that are planned and/or erected above or underground, as well as the land utilised for the purpose and supporting infrastructure. The CBE and the SACPCMP Acts enjoin us to work in concert in respect of the 13 administrative functions, alongside the eight mandates of the Council for the Built Environment (CBE) for a sustainable built environment.

The vision, mission and values provide overall direction and inspiration in meeting and exceeding the objectives of the mandate, summarised as follows:

VISION	To be a progressive regulatory body for the Built Environment Management Professions.
MISSION	To create an enabling environment for the promotion, growth and transformation of Built Environment Management Professions through advocacy, research and best practice.
